Tier II Auto Claims Adjuster	Operations Data Analyst	Data Analyst	Business Intelligence Developer
Complex and escalated claims, prior to analytics	Dashboard build out and reporting automation	Enterprise platform ownership and intern leadership	AI architecture, enterprise rollout, QA authority

PROFILE

Business intelligence developer with seven years of experience across insurance, mortgage, and restaurant organizations, building analytics from the underlying data model through the final user experience. I work with business leaders to turn ambiguous questions into clear KPIs, practical reporting, and tools teams can actually use. My work spans BI architecture, semantic modeling, automation, and emerging AI applications, with a focus on making analytics more useful for both the people consuming it and the people delivering it.

PROFESSIONAL EXPERIENCE

Business Intelligence Developer | Little Caesars Enterprises

Detroit, MI | Nov 2024 – Present

- Design enterprise Power BI dashboards with advanced UX/UI built for adoption over feature count.
- Automated paginated report builds with AI, moving delivery from 5-6 days to 5-15 minutes.
- Own team QA and validation standards while partnering with stakeholders to define enterprise KPIs.
- Led TechWeek training on Excel and AI analytics to roughly 100 people in 2025 and 2026.

Data Analyst | Rocket Mortgage

Detroit, MI | Aug 2022 – Nov 2024

- Served as lead BI developer for Performance Marketing, designing the reporting the team ran on.
- Led the Rocket Rewards analytics platform end to end as the lead analyst on the project.
- Led three intern cohorts totaling six interns while carrying a full project delivery load.
 - Directed 2 analysts and 1 engineer building a production executive dashboard for team KPIs.
 - Guided 2 analysts redesigning the campaign performance report and teaching data modeling.
- Authored a monthly analytical publication built on real findings rather than release notes.

Operations Data Analyst | Farmers Insurance – Kraft Lake Brokerage

Caledonia, MI | Dec 2019 – Jul 2022

- Built Power BI and Tableau reporting for written premium across every territory and product line.
- Drove 20% written premium growth over two years through data driven territory targeting.
- Defined KPIs with marketing leadership and tracked pace to goal in every reporting period.
- Automated recurring reporting with Alteryx workflows feeding the Power BI dashboards.

TECHNICAL PROFICIENCY

BUSINESS INTELLIGENCE		DATA PLATFORM		AI & AUTOMATION	
Power BI / DAX	EXPERT	Microsoft Fabric	ADVANCED	AI assisted reporting	EXPERT
Dashboard UX/UI	EXPERT	Databricks / PySpark	ADVANCED	Agentic AI design	ADVANCED
SQL	EXPERT	Azure	ADVANCED	Copilot Studio	ADVANCED
Semantic modeling	EXPERT	AWS data lake	PROFICIENT	Power Automate	ADVANCED

DABOT, Agentic AI DevOps Assistant

Little Caesars | Project Lead & Architect

Turns meeting transcripts and proposals into Azure DevOps work hierarchies inside Teams.

- Initiated the project and lead its architecture on Copilot Studio using Claude models.
- Eliminated the story writing phase entirely, cutting 4-5 days from every delivery cycle.
- Authored a custom skill library and Power Automate scoping so work items meet SCRUM standards.
- Secured executive sign off and approval for rollout across the wider organization.

Rocket Rewards Analytics Platform

Rocket Mortgage | Lead Analyst & BI Developer

Loyalty program analytics across Rocket Mortgage, Rocket Loans, and Rocket Homes.

- Proved Rewards lifted close rates among lower tier clients, overturning a core assumption.
- Built a composite Power BI model, using Power Query to unify the AWS data lake and warehouse.
- Built custom visuals comparing self enrolled and auto enrolled cohorts in the funnel.
- Reached 300-600 recurring users and cut adhoc requests roughly 20% via self service.

Performance Marketing Analytics Suite

Rocket Mortgage | Lead BI Developer

Owned the analytical tooling Performance Marketing used every day to commit spend.

- Tracked live campaign spend and return so leadership saw real profit, not just activity.
- Built an audience viability tool scoring reach against the predictive model before spend.
- Developed a run rate model projecting whether in flight campaigns would reach goal.
- Designed the shared data views and semantic layer that let the team self serve.

COMMUNITY INVOLVEMENT

Executive Committee Member

Walk to End Alzheimer's, Detroit

Volunteer leadership committee for the Detroit walk. Support recruitment, retention, outreach, and fundraising.

Community Educator

Alzheimer's Association

Deliver consumer education programs to community audiences. Refer attendees to Association services and the Helpline.
