

CAREER TIMELINE

JUN 2016 – DEC 2019	DEC 2019 – JUL 2022	AUG 2022 – NOV 2024	NOV 2024 – PRESENT
Farmers Insurance	Farmers Insurance – Kraft Lake Brokerage	Rocket Mortgage	Little Caesars
Tier II Auto Claims Adjuster	Operations Data Analyst	Data Analyst	Business Intelligence Developer
Prior to analytics; first analysis lifted team NPS 15%	Report build out and delivery automation	Enterprise platform ownership and intern leadership	AI architecture, enterprise rollout, QA authority

PROFILE

I build the analytics and the tools a business runs on, not just the reports that describe what happened. Seven years across insurance, mortgage, and restaurant organizations, working from the semantic model underneath through to the user experience on top, across governed data models, automation, and AI assisted reporting. I translate unclear business questions into actionable insights and tools that run flawlessly on their own.

PROFESSIONAL EXPERIENCE

Business Intelligence Developer | Little Caesars Enterprises

Detroit, MI | Nov 2024 – Present

- ◆ Design enterprise Power BI reports with advanced UX/UI built for adoption over feature count.
- ◆ Automated paginated report builds with AI, moving delivery from 33 hours to roughly 2 hours.
- ◆ Own team QA and validation standards while partnering with stakeholders to define enterprise KPIs.
- ◆ Led TechWeek training on Excel and AI analytics to roughly 100 people in 2025 and 2026.

Data Analyst | Rocket Mortgage

Detroit, MI | Aug 2022 – Nov 2024

- ◆ Served as lead BI developer for Performance Marketing, designing the reporting the team ran on.
- ◆ Led the Rocket Rewards analytics platform end to end as the lead analyst on the project.
- ◆ Led three intern cohorts totaling six interns while carrying a full project delivery load.
 - Directed 2 analysts and 1 engineer building a production executive report for team KPIs.
 - Guided 2 analysts redesigning the campaign performance report and teaching data modeling.
- ◆ Authored a monthly analytical publication built on real findings rather than release notes.

Operations Data Analyst | Farmers Insurance – Kraft Lake Brokerage

Caledonia, MI | Dec 2019 – Jul 2022

- ◆ Rebuilt roughly 25 reports from Alteryx and Tableau into Power BI, retiring two licensed tools and the analyst request queue.
- ◆ Drove 20% written premium growth over two years through data driven territory targeting.
- ◆ Owned marketing reporting for written premium across every territory and product line.
- ◆ Defined KPIs with marketing leadership and tracked pace to goal in every reporting period.

TECHNICAL PROFICIENCY

Executive Advisory	EXPERT	Semantic modeling	EXPERT	Microsoft Fabric	PROFICIENT	Power Automate	ADVANCED
		Microsoft Excel	EXPERT	Databricks	PROFICIENT		

SIGNATURE PROJECTS

Agentic AI Delivery Tool

Little Caesars | Project Lead & Architect

Turns meeting transcripts and proposals into Azure DevOps work hierarchies inside Teams.

- ◆ Initiated the organization’s first agentic AI delivery tool and lead its architecture on Copilot Studio.
- ◆ Eliminated the story writing phase entirely, cutting 3 days from every delivery cycle.
- ◆ Authored a custom skill library and Power Automate scoping so work items meet SCRUM standards.
- ◆ Secured executive sign off and approval for rollout across the wider organization.

Rocket Rewards Analytics Platform

Rocket Mortgage | Lead Analyst & BI Developer

Loyalty program analytics across Rocket Mortgage, Rocket Loans, and Rocket Homes. Rocket reported over 1 million clients enrolled and more than double the lead to close conversion for enrolled clients.

- ◆ Overturned a C-suite assumption about which client segments the program converted.
- ◆ Helped build a composite Power BI model, using Power Query to unify the AWS data lake and warehouse.
- ◆ Built custom visuals comparing self enrolled and auto enrolled cohorts in the funnel.
- ◆ Reached about 500 recurring users, executives included, through self service.

Performance Marketing Analytics Suite

Rocket Mortgage | Lead BI Developer

Owned the analytical tooling Performance Marketing used every day to commit spend.

- ◆ Tracked live campaign spend and return so leadership saw real profit, not just activity.
- ◆ Built an audience viability tool scoring reach against the predictive model before spend.
- ◆ Developed a run rate model projecting whether in flight campaigns would reach goal.
- ◆ Designed the shared data views and semantic layer that let the team self serve.

COMMUNITY INVOLVEMENT

Executive Committee Member
Walk to End Alzheimer's, Detroit

Volunteer leadership committee for the Detroit walk. Support recruitment, retention, outreach, and fundraising.

Community Educator
Alzheimer's Association

Deliver consumer education programs to community audiences. Refer attendees to Association services and the Helpline.
